ABOUT US

www.antexjayaexim.com

PT. Antex Jaya Exim is an Indonesian leading company in manufacturing and exporting furniture since 1998. With years of experiences, we are serving and supplying our customers with high export quality furniture. In addition, PT. Antex Jaya Exim always try to innovate and create fashionable furniture design. Each year, the company always present you the newest, unique and its beautiful products.

As the company growing up, we noticed that we should not only pay attention to the design, but we also need to pay attention to the quality of the products. We always do sampling before we launch a new product to test the construction and also to check whether the product is suitable or comfort enough to be used in daily life. It will be useless if it is only beautiful but does not lasting for years, right?

Besides prioritizing quality of the product, PT Antex Jaya Exim also supports natural preservation by using legal wood for our production. SVLK (Wood Legality Verification System) or also known as FLEGT (Forest Law Enforcement , Governance and Trade) certification is one of evidences toward our awareness to natural preservation. We have registered in Indonesian legal woods as a verification that we only use legal woods that are authorized by the Indonesian Government.

Seeing the rapid growing of furniture innovations and demand by the market, we always want to spoil our customers with new and updated design each year. Those products are exclusively launched and exhibited in some below international trade fairs we followed:
